

SMS for STRATAMaster

RockendSMS has designed and developed an integrated way of sending SMS through STRATAMaster.

SMS messaging from STRATAMaster can be sent two ways:-

1. Sending SMS message from the STRATAMaster Contact Screen
2. Sending Bulk SMS messages from the message icon

STRATAMASTER SMS SET-UP CHECKLIST

1. Updating your STRATAMaster Settings *[page 2]*
2. Sending SMS from STRATAMaster *[page 3]*
3. Reporting on SMS *[page 4]*

Important Note for users of RockendSMS

When signing up with RockendSMS you would have received a welcome email containing your username (email) and password. If you have forgotten your password it can easily be reset by visiting www.rockendsms.com.au and clicking on the forgotten password link under the login area.

1 UPDATING YOUR STRATAMASTER SETTINGS

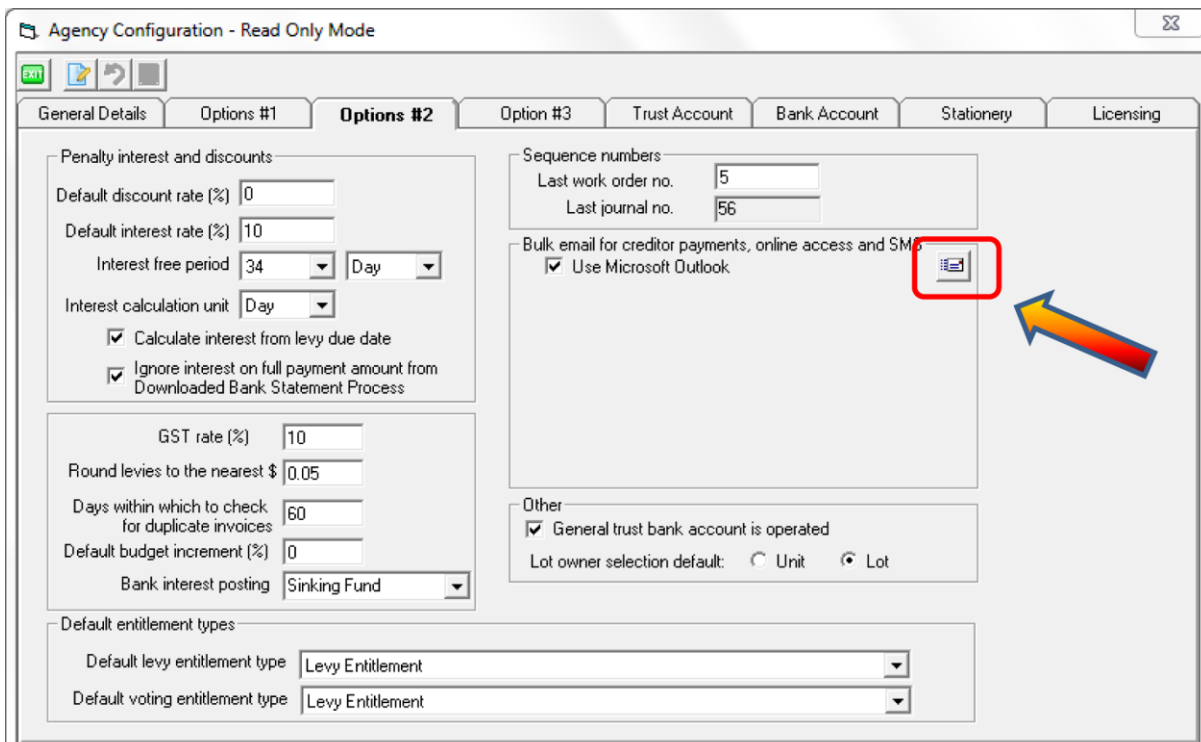

Once RockendSMS account is active a test message must be sent before STRATA Master will allow messaging to be used.

1. Your system administrator, or a user with the required security access must first open **Agency Configuration**, go to:

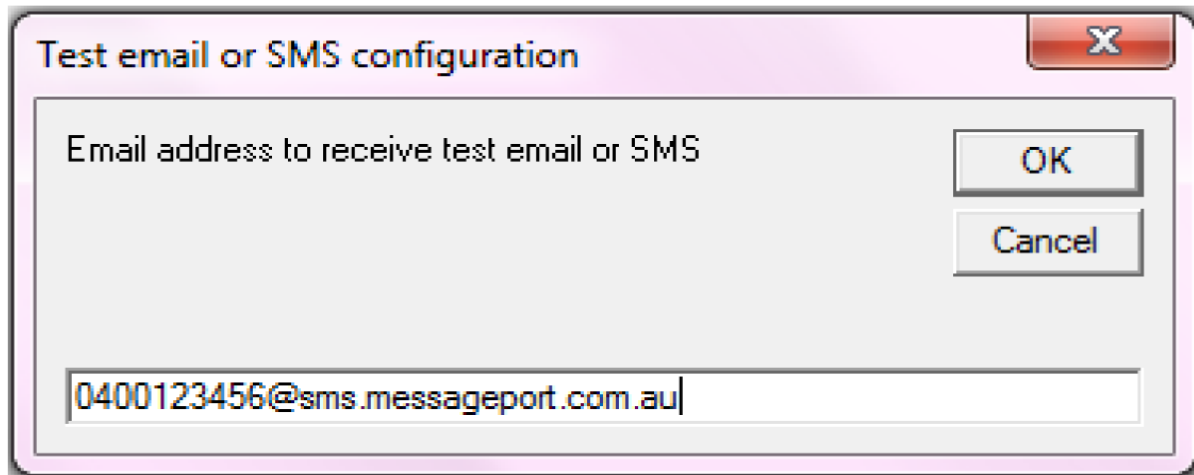

Configure > Agency - go to Option #2

You will need to test the SMS service first

2. To test the SMS service click on the email icon and enter the mobile number to send the test message to followed by **sms.messageport.com.au**
For example: 04XXXXXXX@sms.messageport.com.au

Agency Configuration Screen in STRATAMaster

Test email or SMS configuration Screen in STRATAMaster

3. Once you have received the test message, go to Options #3 in your **Agency Configuration** and check the box to confirm that the SMS service has been tested and is operating.

Agency Configuration Screen in STRATAMaster

4. Set-up is complete.

2 SENDING SMS FROM STRATAMASTER

SMS messaging from STRATAMaster can be done in two ways:-

- a. Sending SMS message from the STRATAMaster Contact Screen
- b. Sending Bulk SMS messages from the message icon

2.1 SENDING SMS MESSAGE FROM THE CONTACT SCREEN

One off SMS messages can be sent from any contact screen in STRATA Master.

Click the mobile phone icon (to the right of the email icon) and a test message screen will be displayed. By default, this message is recorded in the Owners Corporation diary as a closed entry, and the management fee is recovered (if configured).

 **Please Note:**

160 Character Limit apply to message sent via STRATAMaster
If character limit is exceeded it will cut off the message after 160 characters

2.2 SENDING BULK SMS MESSAGE FROM THE MESSAGE ICON

To send a message to all contacts within an Owners Corporation this can be done by clicking on the **Messaging Icon** on the toolbar, or by selecting;

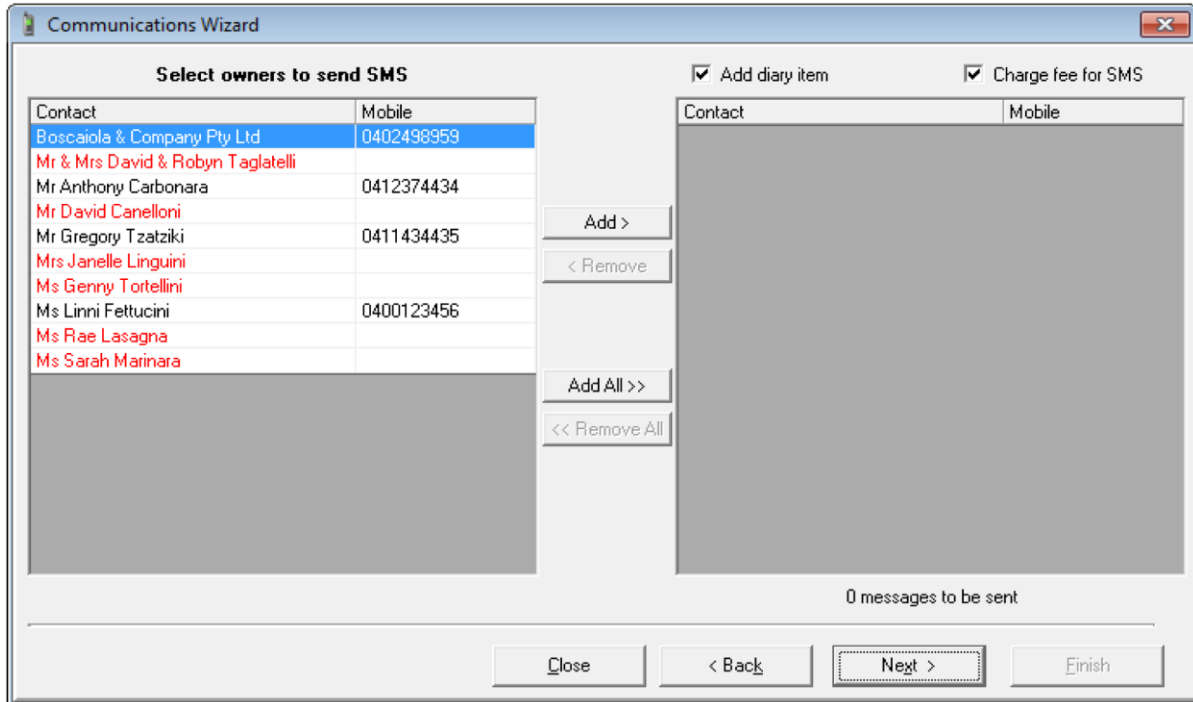

View > Messaging from the drop down menu

You will need to test the SMS service first

The contact groups available to send a Bulk SMS to are:

- Owners
- Tenants
- Agents
- Residents
- Executive

Once a group of contacts has been selected to message, the screen will display all valid mobile numbers in **black** and any invalid numbers in **red**.

If a contact has been included in the Bulk SMS which does not have a valid mobile number, the contact must first be updated with a valid number. When you reopen the Communication Wizard it allows STRATA Master to revalidate the numbers.

Once contacts have been selected, the total number of messages to be sent will be displayed on the screen. By default, this message is recorded in the Owners Corporation diary as a closed entry, and the management fee is recovered (if configured).

3 REPORTING ON SMS MESSAGES

By default, all messages sent from STRATA Master will create an automatic closed entry in the Owners Corporation diary.

The details recorded are:

- Date and time of message being sent
- The user who sent the message
- Contact/s who received the message
- The text included in the message

To create this report select;

Reports > Daily Notes
